

Session 4 Topic - Intergenerational / Mixed Use Housing

Notes

Recognize a need for change in how we house/care for elderly

- Possibility of village/community pairing elderly, young people/students, artists in family-like /mentoring relationships
 - Possibility of center for aging - architecturally appropriate, incorporating natural light, nature, vicinity to dog park / childcare / vibrant spaces
 - Possibility of residential remodels - convert 2nd stories into 2nd home & bring in students or artists
- Issue of social, zoning, city planning, architecture, health services
Incorporate caseworkers, space for homeless / mentally ill?

Next Steps

- Investigate grants that could fund research for the design
- Investigate models in U.S. and World (Japan, Europe)
- Talk with others more knowledgeable of situation & possible venues of support — Bernice Vanderhasin?
